

## PRODUCT DATA SHEET

### **Accinox SP : Non Staining antioxidant**

Composition : Mixture of Styrenated Phenols

#### **Physical Properties**

Appearance : Light reddish yellow clear viscous liquid.  
Sp Gr at 25°C : 1.08 ( Typical)

#### **Typical Analysis**

Parameter		Limits	Test methods
Acid Value	(%)	0.10 (max)	VM
Free Phenol	(%)	1.5 (max)	VM
Residual pH		5.50 – 5.90	VM
Volatile matter (60°C/2hrs)	(%)	0.80 (max)	ASTM D4571
Ash content	(%)	0.10 (max)	ASTM D4574

#### **Solubility**

Soluble in methanol, insoluble in water.

#### **Notes on Uses**

Accinox SP is a non staining mild antioxidant for use in Natural, synthetic rubbers and latices. It is also used as a stabilizer for SBR & synthetic rubbers for its non-staining properties.

#### **Storage and Handling**

Stable indefinitely under normal storage conditions.

No special precautions are necessary. Normal precautions to avoid contact with skin and eyes should be followed. Skin contamination: Wash liberally with soap and water. In case of contact with eyes rinse immediately with plenty of water and seek medical advice.

#### **Packaging**

50 Kg. in HDPE carboy.

Issue No : 5
